Hi Karen,

Per your request, please see the attached files. I will send the next group of 5 pdfs as a separate email due to our email attachment size constraints. Please let me know if you have additional questions.

Seth

Seth Pelepko, P.G. | Licensed Professional Geologist
Well Plugging and Subsurface Activities Division
Bureau of Oil and Gas Management

Seth – can you get Karen sample data from Dimock?

Karen - Thanks for the offer to go to Dimock and meet with residents. I've done that on several occasions already. My inclination is to decline.

Scott R. Perry | Acting Deputy Secretary
Office of Oil and Gas Management
Department of Environmental Protection

Subject: Inquiry about Dimock...

So what else is new right?

FYI the Research sampling is taking place at the 2 residences in Dimock today. **Ex. 6 - Personal Privacy** are the only ones...but also,

Despite the sifting through the calls to find that only 3 of the 30+ calls from concerned citizens are from residents that have well problems, our Regional Administrator's special assistant thinks someone needs to go up there and talk to the residents. Unfortunately the community involvement coordinator who volunteered needs someone technical to go with her and I've been appointed. At this point she wants to knock on the doors of the Carter Road residences and offer to hear their "concerns". They still have not offered to share any data. Could you have someone PDF me some sample data from pre-drilling and post drilling that Cabot took so I know what was known at the time of your Order? If we do this I at least want to know what was there and whether it is anything different, so I can pass it along...

...also anyone you want to send along?? Sometime in the next week or so. The only time I have available is Veteran's day and that Saturday, and maybe Nov 16th-17th, **Ex. 6 - Personal Privacy**

I have to head out to an appointment later today but I'll be checking my email later this evening. if you can send anything along.....THANKS!

Karen D. Johnson, Chief
